LOCHAN GOWDA T M

Bengaluru, India | 10lochangowda@gmail.com | linkedin.com/in/lochangowda10 | github.com/lochangowda10

SUMMARY

Second-year B.Tech student in Artificial Intelligence and Data Science (CGPA 9.55/10) building LLM-powered applications, full-stack web products, and cloud-deployed backends. Datathon winner and hackathon team lead with hands-on project experience in Python, React, Next.js, FastAPI, PostgreSQL, and LLM APIs. Seeking AI/ML and software engineering internships.

EDUCATION

BMS College of Engineering — Bengaluru, India
Bachelor of Technology in Artificial Intelligence and Data Science — 2025 – 2029 (Expected)
CGPA: 9.55/10 (after 2 semesters)

PROJECTS

LaunchLoop AI — *GitHub API, Vercel, SQLite, Neon PostgreSQL*

- Worked on production deployment of an AI-powered project with GitHub and Vercel, including deployment configuration and debugging.
- Contributed to migrating the database from SQLite to Neon PostgreSQL (serverless Postgres) for production use.
- Tackled GitHub API integration challenges, including default-branch detection and API rate-limit handling.

AI Swing Trading Copilot | AMD Hackathon — *Agentic AI, LLMs, UI/UX*

- Co-developed an agentic AI decision-support concept for swing-trading research, market analysis, and risk assessment as part of a hackathon team.
- Contributed to frontend and UI/UX development, AI agent workflow design, and product ideation.
- Explored privacy-focused local AI inference using AMD Ryzen AI hardware.

AI-Based Drone Detection System — *YOLOv8, Raspberry Pi, Computer Vision*

- Designed a low-cost, real-time drone detection concept for security monitoring using YOLOv8 on Raspberry Pi.
- Documented the system architecture, use cases, hardware approach, and prototype workflow.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, HTML, CSS
Frameworks: React, Next.js, Tailwind CSS, FastAPI, Streamlit
AI and LLMs: LLM APIs, Amazon Bedrock, Ollama, Groq, Agentic AI Workflows, Claude Code
Cloud and Databases: Vercel, Render, Neon PostgreSQL, SQLite
Developer Tools: Git, GitHub, GitHub API, REST APIs

ACHIEVEMENTS AND LEADERSHIP

- Datathon Winner, BMS College of Engineering: Led the team to a winning result in the college Datathon.
- AMD Ryzen AI Slingshot Ideathon, REVA University: Collaborated on AI-focused ideation and problem-solving.
- Team Leadership: Led and coordinated student teams across hackathons and ideation competitions, from ideation through development and final submission.
